

Catastrophic Events Poster Project

You are going to create a poster about one catastrophic event that you find the most fascinating. We will work on the planning of the poster during a LIVE lesson, then you will have to finish as your asynchronous lesson afterwards. On your poster, you will have to include the following:

- Type of disaster
- Reason why it occurs
- Picture of disaster (drawn or printed)
- Damage that it causes
- Nice colors/images (eye-catching)
- Creativity and neatness

Natural Disaster Research Questions	
Name of Catastrophic Event	
Where does the disaster commonly occur?	
What causes the disaster to occur?	
What damage does the disaster cause?	
What should people do during this disaster?	
How can people prepare for this disaster ahead of time?	

Poster Planning Rough Draft
