

## ADDING AND SUBTRACTING DECIMALS

Mrs. Mui is reviewing how to add and subtract whole numbers with her students. Help Mrs. Mui by solving the problems below.

$$\begin{array}{r} 456 \\ + 233 \\ \hline \end{array}$$

$$\begin{array}{r} 179 \\ + 45 \\ \hline \end{array}$$

$$\begin{array}{r} 326 \\ - 89 \\ \hline \end{array}$$

- a. Describe the process you used to add and subtract the numbers above.
- b. How would this process also apply to adding and subtracting decimals?

### ADDING & SUBTRACTING DECIMALS

1. Line up the numbers based on their \_\_\_\_\_.
2. Include any \_\_\_\_\_.
3. Add or subtract like place values.

Use your understanding of adding and subtracting decimals to line up each place value. Use the grid to keep your work organized.

1.  $379 - 54 = \underline{\hspace{2cm}}$

			•	
			•	
			•	

2.  $37.9 - 5.4 = \underline{\hspace{2cm}}$

			•	
			•	
			•	

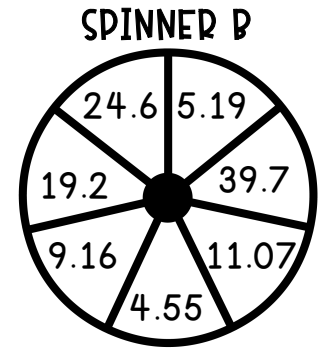

3.  $3.79 - 0.54 = \underline{\hspace{2cm}}$

			•	
			•	
			•	

4. What patterns do you notice in the problems above?

Using your pencil and a paper clip, spin each spinner on the right.

Then, add or subtract depending on the column in the table below.

	ADD	SUBTRACT	ADD	SUBTRACT
SPIN 1				
SPIN 2				
WORK				
SOLUTION				

Apply the process of adding and subtracting decimals to the solve questions 5-6.

5. A sandbox measures 2.8 meters by 1.9 meters. How many meters of wood will be needed to go around the perimeter of the sandbox?

2.8 meters

6. Put a check by the name of any student who solved a problem with a solution of 259.16.

**KINA**

$$71.67 + 187.49$$

**MILTON**

$$861.1 - 601.94$$

**LILY**

$$460 - 211.16$$

Summarize today's lesson:
