Name _____

Create your own Money!

Today, people can pay for goods using many forms of money. Checks, plastic cards, and even computers and cell phones are being used as money. Standard money of coins and bills are actually being used less than ever before! Think about money we use today and what money could be like in the future. Create a new form of money that can be used in the United States.

Describe/ Explain your money: _____

Draw your new form of money:
