

Egg Drop Challenge

It's time for a classic experiment: the egg drop challenge! For this experiment, you will create a contraption that will protect an egg when you drop it. You can use whatever materials you would like to build your contraption.

****Use help from parents or older siblings when building your contraption****

Step 1: Create a contraption that will hold an egg (any materials you want)

Materials: What materials did you use to build your contraption?

Step 2: Drop your egg (in the contraption) from a high spot (2nd story, top of playground, etc)

Step 3: Record your results

Did your egg break? YES NO

What changes could you make to your contraption to make it work better?
