## Piaget's Stages of Cognitive Development Worksheet

1. Approximately what ages does the sensori-motor stage of Piaget's theory encompass?
2. What stage is a child mostly likely in when he or she can do algebra problems?  
Hint... Algebra uses abstract thought.
3. During which of Piaget's stages might a child start learning, and using many new words?
4. Which stage of children might benefit from visual demonstrations with concrete objects when a teacher describes and explains new concepts?
5. What stage of Piaget's Cognitive Development do you think you are in and why?
