

EXTRA PRACTICE LESSON 5

HOW MANY IN EACH GROUP?

Name: _____

Date: _____

Directions: Cut out the donuts on the next page and glue to show each problem.

- 1) Chloe purchased 24 donuts. She places an equal number of donuts into the 3 boxes below. How many donuts are in each box? Fill in the blanks

How many in each?

Each box has _____ donuts.

Write a matching equation:

What does each number in the equation represent?

- 2) Hector purchased 36 donuts. An equal number of donuts are placed into the four boxes below. How many donuts are in each box? Fill in the blanks

How many in each?

Each box has _____ donuts.

Write a matching equation:

What does each number in the equation represent?

Directions: Cut out the donuts and glue to model each problem.
