

EXTRA PRACTICE LESSON 8

MULTIPLICATION AND DIVISION EXPRESSIONS

Name: _____

Date: _____

Directions: Cut out the arrays below and find the correct match. Fill in the blanks.

A)

Equations: $\underline{\quad} \div 7 = \underline{\quad}$ | $7 \times \underline{\quad} = 42$

What does the 7 represent?

What does the missing quotient represent?

C)

Equations: $40 \div 5 = \underline{\quad}$ | $5 \times \underline{\quad} = 40$

What does the 5 represent?

What does the missing quotient represent?

B)

Equations: $36 \div 9 = \underline{\quad}$ | $\underline{\quad} \times 9 = 36$

What does the 9 represent?

What does the missing quotient represent?

D)

Equations: $\underline{\quad} \div 8 = \underline{\quad}$ | $\underline{\quad} \times 8 = 56$

What does the 8 represent?

What does the missing quotient represent?
