SORT IT OUT

Name: _____   Date: _____

Directions: Solve each equation. Cut out and sort the equations into the category. Draw an array to represent each problem.

The missing number represents the "Number of Groups"	The missing number represents the "Number in Each Group"

CUT IT OUT

Directions: Cut out the equations, solve and glue to the correct category.

$\underline{5} \times \underline{\quad} = \underline{20}$ $\underline{20} \div \underline{5} = \underline{\quad}$ Draw Array	$\underline{\quad} \times \underline{6} = \underline{12}$ $\underline{12} \div \underline{6} = \underline{\quad}$ Draw Array	$\underline{3} \times \underline{\quad} = \underline{21}$ $\underline{21} \div \underline{3} = \underline{\quad}$ Draw Array
$\underline{\quad} \times \underline{9} = \underline{36}$ $\underline{36} \div \underline{9} = \underline{\quad}$ Draw Array	$\underline{4} \times \underline{\quad} = \underline{32}$ $\underline{32} \div \underline{4} = \underline{\quad}$ Draw Array	$\underline{\quad} \times \underline{11} = \underline{33}$ $\underline{33} \div \underline{11} = \underline{\quad}$ Draw Array
