

Renewable Energy Project

Now that you have learned about nonrenewable and renewable resources, you are going to create a poster displaying one form of renewable resource. Choose one of the following resources below to research and create a poster about. Use this handout to record your information that you want to share on the poster.

[Solar Energy](#)
[Hydroelectric Energy](#)
[Geothermal Energy](#)

[Wind Energy](#)
[Bioenergy](#)
[Nuclear Power](#)

[Hydrogen Energy](#)
[Tidal Energy](#)
[Wave Energy](#)

Directions:

1. Choose one of the renewable resources to research (links provided)
2. Create a poster board OR a Google Slides presentation about your renewable resource
3. Include information about the topics below

Title: Name of renewable resource	
Description of your renewable resource	
Pros of your renewable resource (advantages)	
Cons of your renewable resource (disadvantages)	
Is this renewable resource easy to use? Explain	
How do YOU feel about this renewable resource?
