

# MULTIPLICATION

## 4s TIMES TABLE

We can solve the 4s facts by using the related 2s facts:

- 1 Identify the related 2s fact (replace the 4 with a 2) and solve.
- 2 Double the product of the related 2s fact.
- 3 Solve the related 4s fact.

### EXAMPLE

Find the product of  $4 \times 3$ .

**STEP 1**

2  $\times$  3 is related to 4  $\times$  3

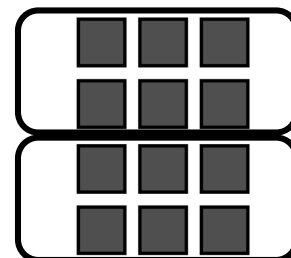

$$2 \times 3 = 6$$

**STEP 2**

**Double 6**

$$6 + 6 = 12$$

**STEP 3**

The product of

$$4 \times 3 = 12$$
