

# # 19

## SHOW YOUR WORK AND DO YOUR BEST!

1. Westmoreland, CA is 157 feet below sea level. Dallas, TX is 430 feet above seal level. What is the difference in the two cities' altitudes?

2. Solve:

a.  $-18 + 7 =$

b.  $45 + (-13) =$

c.  $-9 + (-27) =$

d.  $-\frac{1}{4} + \frac{3}{4} =$

3. Label the number line with the appropriate equation.

4. Use the number line to model the problem below:

$$-4 + (-1) = -5$$
