

Holidays Around the World

In this unit:

Christmas and other holidays are celebrated around the world in so many ways. Students can research the sites and books I've provided to learn about different traditions and cultures.

This unit can be implemented in several different ways. Your students can choose a country and create a lapbook or choose several countries and put the templates into an interactive notebook. Either will work perfectly. Interactive notebooks and lapbooks work well in differentiating in the classroom.

I provided a color and black and white cover for each country. I also included some unique traditions on the templates. Your students can easily interchange these templates. Some of the traditions also apply other countries. For those who want to include Kwanzaa or Hanukkah but live in the USA, just add those templates with the USA. Google Site <https://sites.google.com/site/childrenandcountries/>

Countries included are:

Italy

Mexico

The Netherlands/Holland

Israel

France

United Kingdom

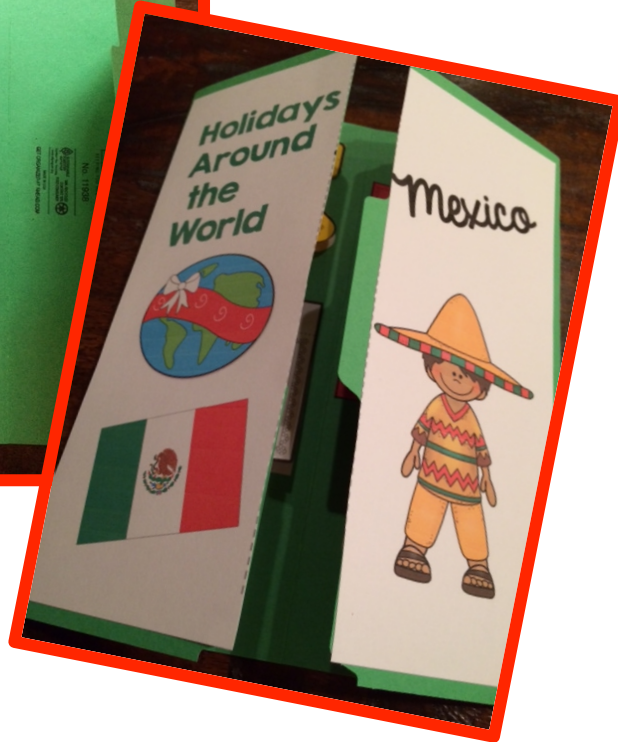

Australia

Germany

Canada

(Kwanzaa)

Fold the colored folder till the flaps meet in the middle.

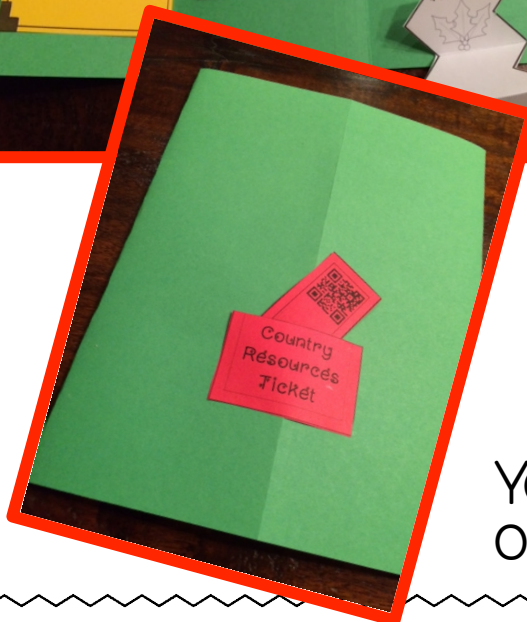

Cut the cover along the dotted line. Glue on both sides of the flaps.

Color the templates before gluing.

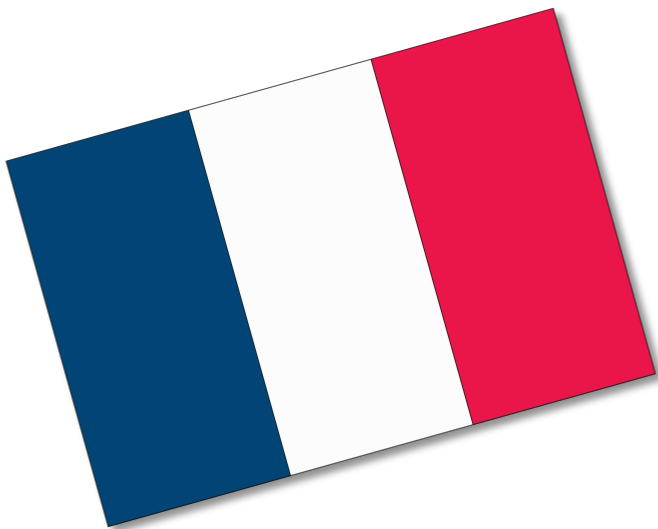

Students can even add more pictures to the lapbooks or interactive notebooks to fill in the spaces..

You can even add items on the back.
