

Directions: Below are several elements in a series. Write their symbols on the lines to create a word.

21. Cobalt – Aluminum _____

22. Francium – Oxygen – Lithium - Carbon _____

23. Cobalt – Nickel – Fluorine – Erbium _____

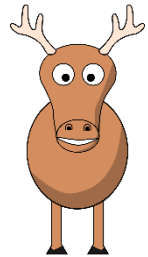

24. Iodine – Vanadium – Yttrium _____

25. Phosphorous – Radium – Nitrogen – Carbon – Erbium _____

26. Sulfur – Hydrogen – Oxygen – Phosphorous _____

27. Vanadium – Iodine – Xenon – Nitrogen _____

28. Tungsten – Oxygen – Neodymium – Erbium – Lanthanum – Neodymium

29. Tungsten – Radium – Phosphorous _____

30. Write the PHRASE that the following symbols create:

Word 1: Beryllium

Word 2: Sulfur – A - Iron

Word 3: Oxygen – Vanadium – Erbium

Word 4: Vanadium – Actinium – Astatine – Iodine – Oxygen - Nitrogen

_____ A _____ !
