

An Ecology Mystery:
Where Have All The Red Fish Gone?
Data Analysis

Work with your team of researchers to examine the clues, gather evidence, and provide reasoning as to why the Red Fish population has decreased. You may use your notes to help you work through this case.

Background Info:

What are 5 human-ocean interactions that negatively impact marine life?

1. _____

3. _____

2. _____

4. _____

5. _____

1. Write the interaction you have found evidence for and write a claim statement about it.
2. List the pieces of evidence you found.
3. Explain your reasoning.. Tell how each piece of evidence proves that interaction took place.

Interaction: _____

Claim
