

Create a Short Story

Now that you know the 5 elements of a story, you can create your own short story! We have practiced writing stories together, but now you get to create your own book!

Directions:

- Use the **Story Elements Organizer** (page 2) to plan out your story
- Use the **Book Layout** to create your book pages
 - Cut on the dotted line and fold the long papers in half (this creates a book)*
 - Do this as many times as needed to get the number of pages you want*
- Write your story on your pages (add more pages when needed)
- Add pictures to your pages
- Submit your organizer (plans) and book for a grade**

Create a Short Story
