

Solar System Project

Choose one of the following projects to create a display of the solar system! Look at the website on the lesson to find out more information on how to complete the projects.

Here are some of our favorites:

Edible Solar System

- Create the solar system using food!
 - Choose a piece of food that represents each planet and the sun (moons, stars, asteroid belt are optional)
 - Place the food on a plate and label each part
 - Submit a picture of your project

Play Dough Planets

- Create the solar system using play dough!
 - Use play dough (or clay) to form each planet and the sun (moons, stars, asteroid belt are optional)
 - Place the play dough on a board, then decorate and label each part
 - Submit a picture of your project

Lego Solar System

- Create the solar system using Legos!
 - Use Legos to form each of the planets and the sun (moons, stars, asteroid belt are optional)
 - Place the Legos on a board, then label each part
 - Submit a picture of your project

Rock Solar System

- Create the solar system using rocks!
 - Paint rocks to show each of the planets and the sun (moons, stars, asteroid belt are optional)
 - Place the rocks on a board, then label each part
 - Submit a picture of your project
