

Biome Model

You are going to create a model of any type of biome. It can be made out of a shoebox, cardboard box, 2 liter bottles, or any other materials you would like to use!

Directions:

- **Choose a biome**
 - Marine (ocean)
 - Freshwater
 - Tropical Rainforest
 - Temperate Forest
 - Taiga Forest
 - Grassland
 - Desert
 - Tundra
- **Include the following:**
 - Plants (real or fake)
 - Animals (fake)
 - Nonliving things (rocks, dirt, etc)
 - Color to make it look nice
- **Answer the questions below about your biome**

Questions:

1. Which biome did you choose? _____
2. Why did you choose that biome? _____

3. What plants did you include in your biome? _____

4. What animals did you include in your biome? _____

5. What else did you include in your biome? _____

Examples:
