# Create a Poster

When people want to bring attention to a certain topic, they usually make posters. Posters are big and can be a great way to catch people's attention. Their words are large (so people can read them), the poster has bright colors to attract attention, and they sometimes have pictures or drawings to help explain.

Directions:

- Think about a topic that you feel very strongly about
    - Maybe it's animal rights, equal rights, school of choice, healthy foods… it can be anything!
    - Create a poster about your topic
    - The posters are supposed to bring attention to your topic, so make sure the poster is:
        - Big and bold
        - Colorful
        - Shows what you believe
        - Include pictures or drawings to catch attention

My Poster Checklist:

☐ The title of my poster (my topic): _____

☐ My poster has colors to attract attention

☐ My poster explains my view with words and/or pictures

☐ My words and pictures take up the whole poster *(don't want to waste space)*

☐ I submitted a picture of my poster for a grade
