Going to the Park

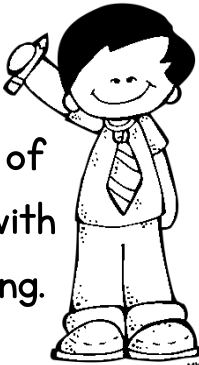

7 Jacie's mom took her to the park
 12 every Monday after school. She
 18 loved going and looked forward to
 24 it each week. On Monday morning
 33 when Jacie got on the bus to go to
 40 school, she saw that there were a
 48 lot of clouds in the sky, and it
 55 looked like it might rain. Jacie kept
 62 looking out the window all day while
 70 she was at school, and the sky just
 75 kept getting darker and darker.
 82 After lunch, Jacie saw that it was
 88 raining outside. She was so sad
 95 because she really wanted to go to
 101 the park after school with her
 108 mom. When Jacie got off the bus,
 116 she knew she was not going to the
 123 park today, but her mom had a
 130 surprise for her. They built a fort
 136 and played games inside instead. It
 141 was a lot of fun!

My Favorite Food

7 My favorite food is ice cream. I
 14 would eat it every day, but my
 21 parents would not let me do that.
 29 Sometimes we go as a family to get
 37 ice cream. It is one of my favorite
 45 things to do. We go into the ice
 53 cream shop and look at all of the
 61 flavors. I even get to try a couple
 68 of the flavors before I pick which
 75 one I want. I almost always choose
 82 chocolate because I think it is the
 88 best. I have had chocolate with
 94 cookies in it and chocolate with
 101 strawberries in it. One time, I even
 106 had chocolate ice cream with
 111 bubblegum in it. Even though
 118 chocolate is my favorite kind of ice
 125 cream, I think I could eat any
 132 flavor and be happy. What is your
 137 favorite kind of ice cream?

Recess

8 Recess is the best part of the day.
 15 We always have so much fun during
 22 recess. I play with my friends the
 28 whole time. We always run outside
 35 and go straight to the biggest slide.
 43 After we go down the slide a couple
 51 of times, we run over to the swings.
 61 It is so much fun to see how high we
 68 can swing. Sometimes I feel like I
 77 am flying in the sky like a bird. I
 86 get so high that I think I might be
 94 able to touch the sun. The last thing
 100 we do during recess is play
 106 basketball. We like to shoot baskets
 113 and have contests to see who can
 120 make the most. I have never been
 127 very good at basketball, but I am
 133 getting better every day. I always
 139 look forward to recess each day
 146 because my friends and I have so
 148 much fun!

The Farm

8 Bessie was a pig. She lived on a
 14 farm with horses, cows, and ducks,
 22 but there were no other pigs on the
 27 farm. Bessie loved the horses,
 34 cows, and ducks and they were her
 39 friends, but she got lonely
 45 sometimes being the only pig. She
 51 always felt like the other animals
 58 looked at her funny when she would
 67 say that she liked to roll in the cool
 73 mud. They did not understand why
 80 Bessie would want to get so dirty
 88 by rolling in the mud. One day, the
 95 farmer told the animals that he had
 101 a surprise for them. Another pig
 107 walked in! Bessie was so excited to
 115 meet the new pig. Her name was
 120 Nellie. Bessie and Nellie became
 126 friends right away. They rolled in
 134 the cool mud every day and it made
 137 them very happy!

Sammy the Skunk

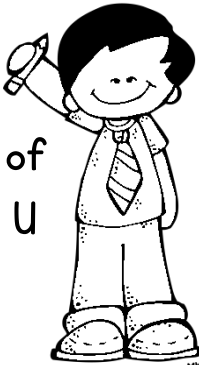

7 Sammy the Skunk did not have any
 13 friends. None of the other animals
 18 wanted to be around Sammy
 25 because he was a skunk, and they
 31 knew that skunks could be stinky.
 37 One day, Ronnie the Rabbit saw
 43 Sammy crying by a tree. Ronnie
 49 felt sorry for Sammy and decided
 57 to go and talk to him. He smelled
 63 the air and didn't smell anything
 69 stinky. He walked even closer to
 74 Sammy and still didn't smell
 79 anything bad. Ronnie asked Sammy
 85 what was wrong. Sammy told him
 92 that he was sad because he didn't
 97 have any friends. Ronnie invited
 104 Sammy to come over and play with
 111 the other animals. They all had so
 118 much fun and were so happy that
 123 they were now friends with
 126 Sammy the Skunk.

An Apple Tree

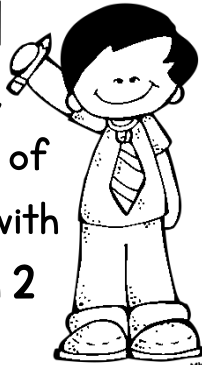

7 Did you know that an apple tree
 12 looks different during each season
 19 of the year? In the winter, an
 26 apple tree loses all of its leaves
 34 and looks almost like it is a dead
 41 tree. Once winter is over and the
 47 weather starts warming up in the
 53 spring, an apple tree begins to
 59 grow green leaves and small buds
 64 on the branches. These buds
 68 bloom into beautiful apple
 74 blossoms, which are white and pink
 78 flowers. The flowers eventually
 85 fall off, and small green apples will
 91 begin to grow during the summer.
 97 These apples will continue to grow
 103 and change colors until they are
 111 ripe and ready to be picked in the
 117 fall. The apple tree will eventually
 124 lose all of its leaves and apples
 130 and be ready for winter again.

7 It had been raining all morning, and

 34 and went out into his backyard.
 42 He looked up into the sky and saw
 47 the most beautiful rainbow. Ben
 51 started walking towards the
 59 rainbow to see if he could find the
 66 end of it. He kept walking and

 78 seem to be getting any closer.
 84 Ben could not understand why he
 89 wasn't getting any closer to
 95 finding the end of the rainbow.
 101 Finally, Ben gave up because he
 107 was getting too far from home.
 112 Ben turned around and headed
 118 back toward home. He sat down
 126 on his back step so he could look

Earth

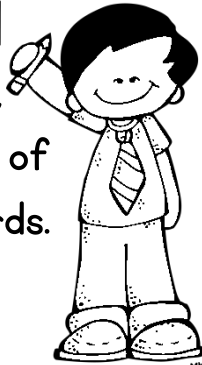

8 We live on the planet Earth. It is
 15 the third planet from the sun. It
 22 is the only planet that humans can
 29 live on because it is the perfect
 35 temperature, and it is the only
 42 planet with water and air that we
 47 can breathe. Earth orbits around
 53 the sun, which means that it
 59 travels around the sun. It takes
 67 one year for the Earth to orbit all
 73 the way around the sun. The
 79 Earth also spins while it is
 85 traveling around the sun. It takes
 92 Earth twenty four hours to spin all
 98 the way around. This is what
 105 makes a day. When the part of
 112 the Earth where you live is facing
 119 the sun, it is daytime. When the

 39 born. Polar bears have black skin.
 46 They look like they have white fur,

 66 makes it look white. Polar bears
 73 have a thick layer of fat called
 80 blubber to keep them warm in the

Sandcastles

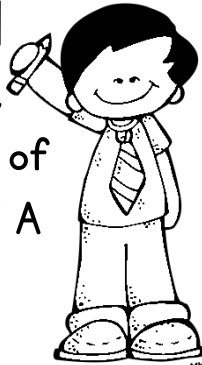

6 We went to the beach this
 10 summer and built three
 15 sandcastles. The first thing we
 22 did was find the perfect spot to
 29 build the castles. It had to be
 36 close to the water, but not too
 43 close, or the waves would knock it
 49 down. Once we found the right
 56 spot, we patted the sand nice and
 62 flat. Then, we filled up our
 68 buckets with wet sand and started
 74 stacking the sand to make the
 81 walls of the castles. Once we had
 87 the walls finished, we used our
 92 shovels to carve doors and
 98 windows into our castles. We also
 105 dug out a moat around the castles
 111 and filled it with water. We
 118 worked on our castles all day, and
 125 we were so proud of them when
 128 we were done.
