

# MOON PHASES

**Date:**

## **DIRECTIONS:**

- 1. Complete the activity on page two.**
- 2. Label the paper plate with Earth in the center and a circle that represents moon's orbit. The circle should have an arrow at some point to indicate the direction of the moon's orbit.**
- 3. On your plate, label where you are going to place each phase of the moon.**
- 4. Gather 8 Oreos. Spilt them in half and use the half with the cream still on it model the phases of the moon.**
- 5. Ensure that your "moons" are in the correct order and are correctly labeled.**
- 6. Have the parent check your model.**
- 7. Clean your work area and make sure nothing is on the floor.**

Label the moon phases in the correct order. Shade in what would NOT be visible in each phase.
