#### Class Example

### NONET POETRY

#### Task:

| Syllables | Poem |
|-----------|------|
| 9         |      |
| 8         |      |
| 7         |      |
| 6         |      |
| 5         |      |
| 4         |      |
| 3         |      |
| 2         |      |
| 1         |      |

- □ Does your poem have the correct number of syllables? Read each line aloud with your hand under your chin. Each time your chin drops, that counts as a syllable. Add up the number of chin drops to check your work.
- □ Does your poem create sense of closure on the last line? Imagine reading this poem at a poetry slam. When you get on the stage, there is a bright spotlight on you. As you read, the spotlight dims. After you say your final word, the spotlight shuts off and you are standing in darkness. Does this gradual sense of closure work with your poem?
- ☐ Does your poem answer the task? Read it aloud to a partner for feedback.

Name:

### NONET POETRY

#### Task:

| Syllables | Poem |
|-----------|------|
| 9         |      |
| 8         |      |
| 7         |      |
| 6         |      |
| 5         |      |
| 4         |      |
| 3         |      |
| 2         |      |
| 1         |      |

- □ Does your poem have the correct number of syllables? Read each line aloud with your hand under your chin. Each time your chin drops, that counts as a syllable. Add up the number of chin drops to check your work.
- □ Does your poem create sense of closure on the last line? Imagine reading this poem at a poetry slam. When you get on the stage, there is a bright spotlight on you. As you read, the spotlight dims. After you say your final word, the spotlight shuts off and you are standing in darkness. Does this gradual sense of closure work with your poem?
- ☐ Does your poem answer the task? Read it aloud to a partner for feedback.

#### Class Example

### TYBURN POETRY

Task:

| Syllables | Poem |
|-----------|------|
| 2         |      |
| 2         |      |
| 2         |      |
| 2         |      |
| 9         |      |
| 9         |      |

- □ Does your poem have the correct number of syllables? Read each line aloud with your hand under your chin. Each time your chin drops, that counts as a syllable. Add up the number of chin drops to check your work.
- □ Does your last two lines follow the Tyburn pattern? Color code the words in the poem that repeat in the correct placement.
- ☐ Does your poem answer the task? Read it aloud to a partner for feedback.

| ь і | _        | _ | _  | _  |
|-----|----------|---|----|----|
| N   | $\alpha$ | n | ٦. | ο. |
| 14  | `        |   |    | σ. |

### TYBURN POETRY

Task:

| Syllables | Poem |
|-----------|------|
| 2         |      |
| 2         |      |
| 2         |      |
| 2         |      |
| 9         |      |
| 9         |      |

- □ Does your poem have the correct number of syllables? Read each line aloud with your hand under your chin. Each time your chin drops, that counts as a syllable. Add up the number of chin drops to check your work.
- □ Does your last two lines follow the Tyburn pattern? Color code the words in the poem that repeat in the correct placement.
- □ Does your poem answer the task? Read it aloud to a partner for feedback.
